The Siemens Foundation is proud to administer the Siemens Merit Scholarship Program on behalf of its participating Siemens Divisions**

All high school students who are dependent sons and daughters of full-time employees at participating Siemens Divisions** are eligible for scholarship consideration. Students must take a qualifying test, the Preliminary SAT / National Merit Scholarship Qualifying Test (PSAT / NMSQT), during the proper high school year and register on the Siemens Foundation website to be considered. In general, students who spend the usual four years in grades 9 through 12 must take the PSAT / NMSQT during their third year (grade 11 / junior year). Scholarships are awarded based on the PSAT / NMSQT scores. **Not all recipients will be National Merit Scholars*.**

For more information on how your child can enter the Siemens Merit Scholarship Program which will award deserving students \$6,000 scholarships go to:
