

Kayla Eschenbacher

Product Development Shop Fellow

“I was taking a molecular diagnostics class, and became even more interested in the research behind global health efforts.”

Kayla Eschenbacher will receive her Associate of Applied Sciences Degree in Biotechnology from Shoreline Community College in June 2017. She is transferring in the fall of 2017 to the University of Washington’s Neurobiology program, in pursuit of her Bachelors of Science degree.

Kayla never lost her curiosity and thirst for learning, even while taking a few years off. While she has always had a strong interest in Neurobiology, she also had a strong passion for global health. Kayla hopes to explore career opportunities in global health through this opportunity and better understand ways to provide protocols and devices to those in need.

Kayla hopes for stronger global collaboration between the U.S. and other countries in to address global health issues and takes inspiration from her family for her continued motivation and academic pursuits.
